Special Issue: Environmental impact analysis of lodgepole pine introduction in Sweden

Editorial 1

Ecological effects and management aspects of an exotic tree species: the case of lodgepole pine in Sweden
O. Engelmark, K. Sjöberg (Umeå, Sweden), B. Andersson, O. Rosvall (Sävar, Sweden), G.I. Ågren (Uppsala, Sweden), W.L. Baker (Laramie, WY, USA), P. Barklund, C. Björkman (Uppsala, Sweden), D.G. Despain (Bozeman, MT, USA), B. Elfving (Umeå, Sweden), R.A. Ennos (Edinburgh, UK), M. Karlman (Umeå, Sweden), M.F. Knecht (Uppsala, Sweden), D.H. Knight (Laramie, WY, USA), N.J. Ledgard (Christchurch, New Zealand), A. Lindelöw (Uppsala, Sweden), C. Nilsson (Umeå, Sweden), G.F. Peterken (Lydney, UK), S. Sörlin (Umeå, Sweden) and M.T. Sykes (Lund, Sweden) 3

The introduction of lodgepole pine for wood production in Sweden — a review
B. Elfving (Umeå, Sweden), T. Ericsson and O. Rosvall (Sävar, Sweden) 15

Ecological effects of introduced tree species in Britain
G.F. Peterken (Glos, UK) 31

The spread of lodgepole pine (*Pinus contorta*, Dougl.) in New Zealand
N. Ledgard (Christchurch, New Zealand) 43

Dispersal ecology of lodgepole pine (*Pinus contorta* Dougl.) in its native environment as related to Swedish forestry
D.G. Despain (Bozeman, MT, USA) 59

Modelling the potential distribution and community dynamics of lodgepole pine (*Pinus contorta* Dougl. ex. Loud.) in Scandinavia
M.T. Sykes (Lund, Sweden) 69

The introduction of lodgepole pine as a major forest crop in Sweden: implications for host–pathogen evolution
R.A. Ennos (Edinburgh, UK) 85

Risks associated with the introduction of *Pinus contorta* in northern Sweden with respect to pathogens
M. Karlman (Umeå, Sweden) 97

Insects on lodgepole pine in Sweden — current knowledge and potential risks
A. Lindelöw and C. Björkman (Uppsala, Sweden) 107

Simulation of soil carbon and nutrient development under *Pinus sylvestris* and *Pinus contorta*
G.I. Ågren and M.F. Knecht (Uppsala, Sweden) 117

A landscape perspective on the establishment of exotic tree plantations: lodgepole pine (*Pinus contorta*) in Sweden
D.H. Knight, W.L. Baker (Laramie, WY, USA), O. Engelmark and C. Nilsson (Umeå, Sweden) 131

Introduction of lodgepole pine in Sweden — ecological relevance for vertebrates
K. Sjöberg and K. Danell (Umeå, Sweden) 145

VOLUME 141, ISSUE 3 **15 February 2001**

A comparison of the medieval and the current fire regimes in managed pine forests of Catalonia (NE Spain)
F. Lloret and G. Marí (Barcelona, Spain) 155

New management options in chestnut coppices: an evaluation on ecological bases
A. Cutini (Arezzo, Italy) 165

Does climber cutting reduce felling damage in southern Cameroon?
M. Parren and F. Bongers (Wageningen, The Netherlands) 175

Immediate effects of fire-severity on soil invertebrates in cut and uncut pine forests
L.-O. Wikars (Uppsala, Sweden) and J. Schimmel (Umeå, Sweden) 189
Structure and floristic diversity in permanent monitoring plots in forest ecosystems of Tuscany
A. Chiarucci, V. De Dominicis (Siena, Italy) and J.B. Wilson (Dunedin, New Zealand) 201
Carbon isotope discrimination and its relationship to drought resistance under field conditions in genotypes of *Eucalyptus globulus* Labill.
P. Pita (Madrid, Spain), F. Soria, I. Cañas, G. Toval (Huelva, Spain) and J.A. Pardos (Madrid, Spain) 211
Frost damage to planted Norway spruce seedlings — influence of site preparation and seedling type
O. Langvall (Lammhult, Sweden), U. Nilsson (Alnarp, Sweden) and G. Örlander (Lammhult, Sweden) 223
Dynamics of seedling banks in beech forest: results of a 10-year study on germination, growth and survival
J. Szwagrzyk, J. Szewczyk and J. Bodziarczyk (Cracow, Poland) 237
The effect of cork removal on the radial growth and phenology of young cork oak trees
C. Fialho, F. Lopes and H. Pereira (Lisboa Codex, Portugal) 251
The effect of stand age on the accumulation of nutrients in the aboveground components of an Aleppo pine ecosystem
D. Alifragis, P. Smiris, F. Maris, V. Kavvadias, E. Konstantinidou and N. Stamou (Thessaloniki, Greece) 259
Crown defoliation improves tree mortality models
M. Dobbertin and P. Brang (Birmensdorf, Switzerland) 271
